*Editor, The Cleft Palate-Craniofacial Journal*

Dear

On behalf of the American Cleft Palate-Craniofacial Association (ACPA), it is my pleasure to formally invite you to attend ACPA's 75th Annual Meeting and Pre-Conference Symposium to take place in Pittsburgh, Pennsylvania, USA from April 10-14, 2018.

Highlights of ACPA's 75th Annual Meeting include the following:

- Dr. Rubin Pillay, a medical futurist and Professor of Healthcare Innovation, will be the Keynote Speaker.
- The Pre-Conference Symposium on April 10th is entitled "Optimizing the Delivery of Team Care" and will focus on critical aspects of multidisciplinary care delivery, specifically as it relates to cleft/craniofacial team clinic operational models and efficiency of care delivery.
- The Study Session and Eye Opener sessions will offer a wide variety of interesting material relevant to clinical care and research; inter-center collaborative studies, clinical outcomes, interdisciplinary team care issues, and the latest in the management of craniofacial conditions.

Please be prepared to actively participate in these and other sessions which provide training in several areas pertinent to giving comprehensive care to patients with craniofacial and cleft palate anomalies. You will be required to participate in discussions with colleagues in your field, where you will gain valuable knowledge. Many of the sessions provide Continuing Education credits upon your completion of an online survey of the meeting.

If you have any questions, or if you need further assistance in any way, please feel free to contact the National Office by e-mail at [meetings@acpa-cpf.org](mailto:meetings@acpa-cpf.org) or by phone at (919) 933-9044.

Sincerely,

Patricia A. Beals, DMD, MS  
ACPA 2018 Program Chair & Vice President
