<td><strong>APA Div. 54 Society for Pediatric Psychology Craniofacial SIG meeting</strong>&lt;br&gt;All mental health providers on cleft teams are encouraged to attend and participate</td>
</tr>
</tbody>
</table>

1. MH provider roles  
   a. How is your time spent? Inpatient/outpatient? Cleft and craniofacial / other clinical areas? Clinical / research / teaching / admin / other?  
   b. How does your team’s clinical model fit with your institution’s productivity expectations for mental health providers?  
   c. What code(s) do you use to bill for team visits? Outpatient follow up? Issues with insurance covering medical visit but not mental health?  

2. Presurgical Psychosocial Interventions  
   a. How do you manage preparing families for surgeries? Do you have standardized presurgical interventions? Which patients and on what timeline? How are they scheduled and billed? Individual/family vs. group sessions?  
   b. Does your center offer ‘classes’ or other workshops for families preparing for common cleft/craniofacial procedures?  

3. Neuropsychological Assessment  
   a. Who does testing for your patients? What is your approach to referrals?  
   b. Anyone using a protocol for timing/content of assessments?
