Adam Levy  
*Executive Director*

Dear

On behalf of the American Cleft Palate-Craniofacial Association (ACPA), it is my pleasure to formally invite you to attend ACPA's 78th Annual Meeting to take place virtually from April 29 - May 1, 2021.

Highlights of ACPA's 78<sup>th</sup> Annual Meeting will include the following:

- Thanks to the virtual format of the meeting, ACPA will be offering more continuing education credit than any past Annual Meeting.
- The virtual Breakout Sessions, Study Sessions, and Advanced/Foundational Courses will offer a wide variety of interesting material relevant to clinical care and research; inter-center collaborative studies, clinical outcomes, interdisciplinary team care; issues and the latest in the management of craniofacial conditions.
- The keynote presentation will be given by Amy Edmondson, who has spent years collecting insightful strategies on how healthcare teams can think creatively to better understand and positively influence patients' perspective.

Please be prepared to actively participate in these and other sessions which provide training in several areas pertinent to providing comprehensive care to patients with craniofacial and cleft palate anomalies. Many of the sessions provide Continuing Education credits upon your completion of an online survey of the meeting.

If you have any questions, or if you need further assistance in any way, please feel free to contact the National Office by e-mail at [meetings@acpa-cpf.org](mailto:meetings@acpa-cpf.org) or by phone at (919) 933-9044.

Sincerely,

John F. Caccamese, DMD, MD, FACS  
ACPA 2021 Program Chair & Vice President
